GitHub: github.com/SuryaAIDev

Final-year B.Tech Computer Science student with hands-on experience in building AI/ML systems, deep learning pipelines, and generative AI applications. Passionate about translating complex business problems into intelligent, data-driven solutions. Proven ability to work across the full AI lifecycle — from data ingestion and model training to deployment and user-facing interfaces. Published researcher in Computer Vision and enthusiastic about designing scalable, production-ready AI systems that deliver measurable real-world impact. Eager to grow within a collaborative, high-performance team tackling enterprise-grade AI challenges.

SKILLS

Programming Languages	Python, C++, Java, JavaScript, SQL
Web	HTML, CSS
Tools	Git, Linux, VS Code
Databases	MySQL, MongoDB

EDUCATION

Bachelor of Technology — Computer Science & Engineering Aug 2023 – May 2027*
SASTRA Deemed to be University, SRC Campus, Kumbakonam
CGPA: 7.8 / 10.0 | Relevant Coursework: Data Structures Algorithms, OS, DBMS, Computer Networks

Senior Secondary Certificate (Class XII) June 2022 – April 2023
Dr. G. S. Kalyanasundaram Memorial School, Chozhan Maligai
Percentage: 83.2 %

ACADEMIC PROJECTS

Queen Bee Identification using Faster R-CNN Oct 2025 – Nov 2025
Python · PyTorch · Faster R-CNN · ResNet-50 · Computer Vision

- Engineered a queen bee detection model using Faster R-CNN with a ResNet-50 backbone.
- Accurately identified queen bees under occlusion and overlapping conditions.
- Enhanced model training to achieve improved detection performance.

Marine Species Detection and Knowledge System Jan 2026 – April 2026
YOLOv8 · Python · Ollama · Phi-3 · RAG · Streamlit

- Developed marine species detection using YOLOv8 for accurate image identification.
- Integrated Phi-3 LLM with a RAG pipeline for relevant information retrieval.
- Built a Streamlit interface to display detected species with generated descriptions.

RESEARCH PUBLICATIONS

Computer Vision-based Recognition of Queen Bees in Colonies Using Faster R-CNN (Accepted - under production).
2nd International Conference on Responsible Artificial Intelligence (ICRAI 2025), Springer — IAASSE Track 2025

LANGUAGES

Tamil (Native) | English (Professional Proficiency)
